The Net at High School

(From 14 to 18 years)

The paper reviews the role of the Net at High School level. The procedures are partly already operational, some are in pilot phase, other are only aims and ideas. How librarians advise the students? How they help the teachers to use it efficiently? What may be the role of the school library and the school librarian in all these tasks?

The Net and the High School

- M** the web page called Sulinet (school net)
- M** further school sites (Startlap [Start site], pages of high schools etc.)
- M** other scattered sites and their content
- M** necessary but still missing web pages and content

The Net and the Students

- M** curriculum and studies. Training in net usage
- M** contacts, entertainment, gaming
- M** information about higher education, further study and jobs, career planning

The Net and the Teacher

- M** general information and update. Support for teachers
- M** freshening teaching knowledge
- M** tools and resources
