

Dr. Dósa Imre:

## **Basics of data protection**

- 1.Data protection as a legal category;
- 2.Fundamentals in the Constitution;
- 3.Basic terms in the data protection;
- 4.Data Protection Commissioner and the data protection register;
- 5.The internal data protection rules and the data protection officer;
- 6.Public Access to Data of Public Interest;
- 7.Other legal rules on security of secrets;

Personal data requires legal protection. The IT based security of data is also important, but without legal protection it cannot be efficient. The act LXIII of 1992 on the Protection of Personal Data and Public Access to Data of Public Interest is the main topic of my lecture.

Dr. Dósa Imre  
data protection officer
